Aide Memoire: Ministerial Committee on Poverty Framework

Following your meeting with us on 19 January, we have prepared a draft framework based on this discussion, attached to this aide memoire. The note reflects the proposed objectives you have for the Committee and attempts to draw together a government story on poverty that could be used as a basis for framing the Committee's scope and discussion.

We will seek your feedback on the draft framework during your catch up with Treasury officials on 31 January at 4pm, and discuss next steps.
