

Media Release

CERA CCDU National Roadshow

Release Date: 11 February 2014

Christchurch is entering a significant period of construction and infrastructure development and we want to ensure that our stakeholders have the best possible information about the rebuild.

If you are involved in the construction industry, as a construction company, a supplier of materials, a provider of design or architecture or quantity surveying services, then you may be interested in attending one of our upcoming roadshow presentations.

If you are an investor, financier, developer, business owner or retailer you may also be interested in attending and meeting the team behind the rebuild of central Christchurch.

Please join us, the Ministry of Business, Innovation and Employment, the Canterbury Employers' Chamber of Commerce and the Canterbury Development Corporation for an update on the progress of the Christchurch rebuild, key timelines and opportunities in the rebuild.
