

Media Release

Snow issues - 11.50am Wednesday 6 June 2012

Release Date: 06 June 2012

The Avondale Earthquake Assistance Centre (EAC), based at the Avondale golf course, is closed today.

The building is accessed by a long sloping ramp which is proving too hazardous to walk on in the snow.

It will reopen tomorrow (Thursday 7 June).

The CBD Red Zone remains open and operational today, however some contractors may assess their own work programmes if the heavy snow continues.
