TARGET DELIVERY PERFORMANCE - QUARTER ENDING JUNE 2025

Target	Baseline (December 2023)	Current (June 2025)	Status
75% reduction (<800 households)	3,141	501	On Track

PROGRESS TOWARDS TARGET

Households in emergency housing at the end of each month

TARGET DELIVERY ACTIONS

The Target was met in December 2024, with the Government now having achieved an 84% reduction from baseline.

The Government remains focused on:

- Improving pathways out of emergency housing, including appropriate supports to ensure exits into stable housing:**
 - The Priority One Fast Track established in April 2024 is working, getting more families with children out of emergency housing and into social housing. As of 30 June, 1,041 households (with 2,220 children) have been housed in a social housing tenancy.
 - Tracking social outcomes-based contracts in Wellington and Waikato to support those remaining in emergency housing to exit and sustain stable housing.
 - On track to exit all contracted emergency housing motels in Rotorua by December 2025.
 - Over 80% of households exiting emergency housing can be identified as going into some form of social, transitional or private housing (as of March 2025).
- Reducing demand and ensuring emergency housing is only used when necessary.**
 - Over \$550m spent annually across many programmes including Transitional Housing, Housing First, Rapid Rehousing to provide a warm, safe place to stay with supportive social services for those in housing need.
- Increasing the supply of suitable housing and maximising the impact of existing supply.** This includes 1,500 social housing places which, as of May 2025, 835 places have been committed, approved or delivered.
- Going for Housing Growth programme** to address the underlying causes of the housing supply shortage.

The Government will continue to monitor and track the target to ensure results are sustained.
