The Cabinet Office, on behalf of the Prime Minister, supports Ministers in identifying and managing conflicts of interest that may arise in their roles. The Cabinet Office therefore holds information related to Hon Matt Doocey's declared conflicts of interest. I have interpreted your request for correspondence to comprise of letters and emails.

Publicly available information

The following information is covered by your request and is publicly available:

interest in relation to any of the listed projects.

Ministers who declared an interest with a particular project left the room for any discussion at Cabinet Committee or Cabinet relating to that project. This information was released by Hon Bishop at the time: [Government releases more Fast-track detail | Beehive.govt.nz](#).

In June 2024, the Audit Office reviewed how Ministers' conflicts of interest were being managed through the fast-track approvals process. This is published – [here](#).

I have therefore refused your request in part under section 18(d) of the Act, on the basis that some of this information is publicly available.

Response

Details regarding conflicts of interest disclosed to the Cabinet Office are not generally released, in order to ensure the confidentiality of Cabinet proceedings, to maintain the effective conduct of public affairs and, in some cases, to protect personal privacy.

This has been the approach taken by successive administrations over many years because it is in the public interest that the Cabinet Office can obtain and assess information about conflicts of interest and provide advice to Ministers on how to resolve them on a confidential basis.

Related to the publicly available information above, I have decided to release the relevant parts of the documents listed below, subject to information being withheld as noted. The relevant grounds under which information has been withheld are:

- section 9(2)(a), to protect the privacy of individuals
- section 9(2)(f)(iv), to maintain the confidentiality of advice tendered by or to Ministers and officials
- section 9(2)(g)(i), to maintain the effective conduct of public affairs through the free and frank expression of opinion.

For some documents, I have decided to release the information to you in the form of a summary, in accordance with section 16(1)(e) of the Act. These summaries are included in the table below.

In making my decision, in accordance with section 9(1) of the Act I have considered whether the public interest in disclosure outweighs the need to withhold the information, and I have concluded that it does not.

Item	Most recent date	Document Description/Subject
1.	20 Aug 2024	Communication with the Prime Minister's office attaching note to the Prime Minister about the annual conflicts of interest review. <i>Commencing in 2024, the Cabinet Office conducts conflicts review with Ministers every six months. These updates are then provided to the Prime Minister for review. This update included a general, high-level note that Hon Doocoy had identified a potential conflict of interest relating to fast-track applications.</i>

2.	20 Sept 2024	Communication with Hon Doocey's office – attached photo is a complete fast-track related conflicts of interest form identifying Ōhoka fast-track project.

As noted above, Ministers (including Hon Doocey) with interests relating to particular fast-track project/s manage these interests by declaring the interest and withdrawing from any discussion at Cabinet Committee or Cabinet relating to that project - Hon Doocey's register records this advice.</i>

Thanks Lisa. On the basis that Hon Doocey has answered "yes" and hasn't provided other details about the nature of the interest, I'll take it that he considers he should declare conflicts with all of those projects.

If he'd like any further advice, let me know.

I attach a note to all Cabinet and ECO Ministers asking them to identify their conflicts with fast-track projects by **10am Saturday 21 September**. This is so we can have a record of their conflicts ahead of Cabinet on Monday and ECO. I also attach the Panel Report, which lists the projects submitted for inclusion in the Fast-track Approvals Bill. Please ask your Minister to complete the table in the note and, if they answer yes or maybe, return it to me.

If you are not your Minister's conflicts of interest contact person, please feel free to loop that person in if your Minister needs any assistance.

If your Minister has already provided written declarations to the Cabinet Office about their fast-track project conflicts (not just their interests generally), you may not need to complete the form. I'll be in touch with you separately if that is the case.

Hi s9(2)(a)

Thanks for getting in touch. Please find a response below.

Please attribute the following to a DPMC spokesperson:

Hon Bishop has released information about the management of conflicts of interest in relation to the Fast-Track Approvals Bill: [Government releases more Fast-track detail | Beehive.govt.nz](#). Ahead of the final list of projects being considered by Cabinet Committee and Cabinet, Ministers, including Hon Doocey, were asked to review their interests and declare any conflicts of interest in relation to any of the listed projects. Ministers who declared an interest with a particular project left the room for any discussion at Cabinet Committee or Cabinet relating to that project.

The Cabinet Office, on behalf of the Prime Minister, supports Ministers in identifying and managing conflicts of interest that may arise in relation to their portfolios or other ministerial responsibilities. Details regarding conflicts of interest disclosed to the Cabinet Office are not generally released, in order to ensure the confidentiality of Cabinet proceedings, to maintain the effective conduct of public affairs and, in some cases, to protect personal privacy. This has been the approach taken by successive administrations over many years because it is in the public interest that the Cabinet Office can obtain and assess information about conflicts of interest and provide advice to Ministers on how to resolve them on a confidential basis. However, the Cabinet Office proactively releases some details of conflicts of interest where the management action is a transfer of responsibility or a standing arrangement not to receive papers. Information about steps taken to manage conflicts of interest set out at paragraph 2.76 of the Cabinet Manual (such as declarations of interest at Cabinet and Committee meetings, and ad hoc or short-term arrangements not to receive papers) are not included in that release. The latest release is [Ministers' Interests 2023-2024 | Department of the Prime Minister and Cabinet \(DPMC\)](#).

Transfers of responsibility were made in relation to the Fast-track Approvals Bill by three Ministers. Hon Bishop has already released details of the transfers of responsibility that occurred relating to him and Hon Jones. Earlier in the year, an Acting Attorney-General was appointed in relation to the Fast-track Approvals Bill as a result of a conflict of interest declared by Hon Collins

(see our latest proactive release as well as this Gazette notice: [Appointment of Minister - 2024-vr881- New Zealand Gazette](#)).

I'm working in Minister Bishop's office and this query on Fast-track COIs has just come through to us. Could we please refer it to the Cabinet Office?

Subject: conflict of interest for Minister Matt Doocey with fast track list

Good morning,

I have a question about how conflicts of interest were managed when Ministers whittled down the fast track list projects.

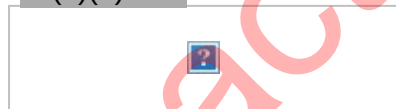

Matt Doocey's cousin, Tim, has a number of projects that made it through on the list - can I confirm how this was managed?

Thanks

Hi Grace and Belinda,

I hope this find you well. I was after some advice from Cabinet office regarding a potential conflict of interest for my Minister and was given your details – are you able to assist please?

The residential subdivision in Ōhoka, North Canterbury is one of the fast-track projects and is in Minister Doocey’s electorate.

The Minister also has a family connection to the Carter Group, the developer of the project – which has previously been declared.

Since the fast-track announcement was made a number of the Ministers constituents have requested to meet with him (in his local MP capacity) to discuss the project.

Can you please inform us when this conflict of interest was identified by Cabinet and when these cabinet discussions pertaining to the Ohoka Development took place.

We propose to provide his office with the wording below but wanted to check with you first if you are okay with the highlighted sentence being included – I don't think that timing information has been released previously.

Hi Thomas, no problem, happy to help – however some of these questions look like ones that we’ve given advice on to Josef recently (about meeting with constituents), and also I think Hon Bishop’s office already had some lines about the party donations. Would it be possible (if you haven’t already done so) to check in with Josef and Hon Bishop’s office and come back to us if there are still particular questions below which you would like further guidance on?

Hi Belinda,

As discussed with Grace I am forwarding to you the below for guidance from the Cabinet Office. We sent it to Minister Bishop’s Office a few weeks ago so some of the Qs/constituent Qs likely fall outside your purview. The Qs concern the fast track development in Ohoka (a small rural settlement in the Minister’s Constituency). Any questions please let me know. Not today urgent but a response this week would be appreciated (while understanding the Cabinet office has many demands on it’s time and things take as long as they take if this week isn’t doable).

Subject: Ohoka

Hi Josef, please see below, happy to discuss

SUPPLEMENTARY QUESTIONS ON OHOKA:

Is it a conflict of interest (per Cabinet Office) for Matt to meet with constituents about Ohoka?

Do we have any lines for those whose projects were unsuccessful?

Do those applicants get feedback as part of the process?

What is the process (if any) for them to challenge the list?

Constituent questions:

“How is it that a sizeable donation made by Phillip Carter to the National party not be considered a major conflict of interest with regard to the inclusion of three Carter Group projects on the Fast-track list?”

“Can you explain the decision-making process? I know that many other constituents and the public in general are deeply concerned by the apparent lack of due process here, in the face of what has been overwhelming opposition (including your own) to the Carter Group’s Ohoka proposal.”

“If Tim Carter’s development at Ohoka goes ahead, (and you have given it the thumbs up along with your Political Party) and surrounding properties are flooded (as modelling has warned you, WILL happen) who pays for the cleanup?”

“Given your previous opposition to this project we would like to know what you are going to do to represent your constituents on this matter. We request that this item be removed from the Fast Track list.”

“Can you please explain to me how a subdivision for wealthy people can be off National importance when what seems to be needed in Nz is lower cost affordable homes.”

“Given the obvious lack of infrastructure and amenities, and the non-existent public transport between Ohoka and Christchurch, why would you support a subdivision here? Wasn’t the intent of the fast-track Bill partly to address the housing crisis, and if so why choose a project with no realistic access to urban centres, jobs, schools, medical centres etc?”

Hi Emma,

Thanks for your email but unfortunately these ``lines'' from Chris haven't answered my question which is:
Why is Matt no longer able to support the Ohoka Residents Association with its opposition to the Carter Group's Ohoka Estate development proposal after publicly stating in July 2022 that he had no conflict of interest and he had no problems opposing the proposal?

As you will know back in July 2022 Matt held a public meeting about this issue and was reported to have said:

`` I don't believe I have a potential conflict of interest as I do not have any financial interests in the Carter Group. I have a job to do and that is to represent the Waimakariri electorate to the best of my ability. Every email phone call and meeting I have had with residents about the Carter group's Ohoka development I have been informing them that the developer is my cousin.

`` It was a surprise to me when I read about the development in the news. When I look around the district at areas of potential housing development Ohoka is not an area I would have picked."

`` I am supportive of Greenfield developments for housing that is in proximity to transport corridors and infrastructure of existing urban areas. This isn't the case in Ohoka."

So, why is this development even on the Fast Track Approvals Bill project list Matt when the land and area is apparently so fundamentally unsuitable for the purpose?

One other question the Ohoka Residents Association would like an answer to please is: What if, as expected, the Fast Track Approvals Bill becomes law, and the WDC declines to rezone the Ohoka Estate land from rural to residential and business, and the Carter Group's Environment Court appeal fails, what happens then?

Under Fast Track Approvals Bill legislation can the Carter Group still get the green light for the development despite failing to clear all these hurdles and others before them? If so, how could that be achieved?

Thanks very much for your time Emma.

I just want a genuine response from Matt or Chris to these three questions, please. They are simple questions which people want answers to so if you could get a response back to me as soon as possible please I would really appreciate that.

Regards,

Hi **S9(2)(a)** below are the questions and responses from Min Bishop's office, am still working on getting more clarity around Cabinet Office advice and will let you know as soon as I have something more on that,

- Do we have any lines for those whose projects were unsuccessful?

Minister Bishop has said publicly that the makeup of the final list isn't a reflection of the quality of projects not listed, nor is it a sign that any future application to the Fast-track process for these projects would be unsuccessful.

- Do those applicants get feedback as part of the process?

I think you are referring to applicants whose projects have not been listed in the Bill? If so, no.

- What is the process (if any) for them to challenge the list?

The list has been confirmed by Cabinet and is not able to be challenged.

Good morning Emma,

Thanks for this information.

I understand what Matt is saying in his comments below.

However, they don't make clear why, after Cabinet Office advice, Matt is now no longer able to support the Ohoka Residents Association on this matter when he was initially able to do so by first publicly acknowledging his family connection to Tim Carter and then publicly opposing the Carter Group's Ohoka Estate development.

Members of the group are feeling let down by the Cabinet Office ruling forcing an about-face on this issue from Matt, particularly since, under parliamentary rules all MP's are required to support their constituents by **keeping up with local issues, and arguing on behalf of local causes within Parliament, within their party caucuses, and elsewhere**", and they would like to know why he is no longer permitted to support them on this issue.

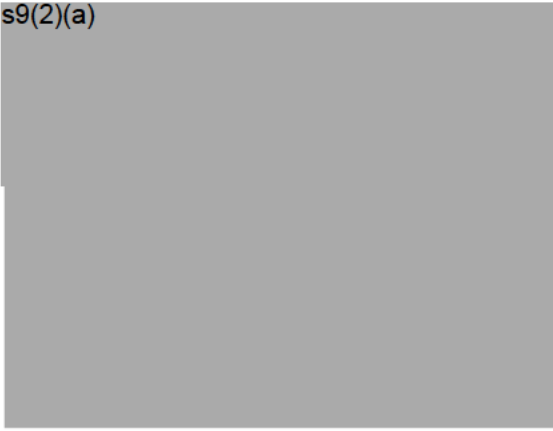

Also, can you outline the questions Matt says he has put to Chris Bishop on behalf of Ohoka residents regarding the Ohoka Estate development for me please and also Chris's response to them.

If I could have Matt's response to this question back to me by tomorrow afternoon please I would really appreciate that.

Thanks very much for your time Emma.

Have a great day.

Hi s9(2)(a) that sounds like a productive way to spend the weekend, hope the rain stays away for you!

Lines below, sing out if any questions

*My previous position on this project is publicly available.
These projects have been selected through a thorough and robust process which included an open application process run by Ministry for the Environment, analysis by Environment officials, an assessment and recommendations process by an independent Advisory Group, and final decisions by Cabinet.
Ministers have carefully followed advice from the Cabinet Office relating to the proper management of real, perceived or potential conflicts of interest. With the Prime Minister's agreement, transfers of responsibility were put in place to ensure no Minister took part in considering a project for inclusion where they had a conflict of interest. Cabinet Ministers who declared an interest with a particular project left the room for any discussion at Cabinet Committee or Cabinet relating to that project.
Being listed in Schedule 2 is not a guarantee that the projects will go ahead. Once the Bill passes into law, the projects in Schedule 2 may apply to the Environmental Protection Agency for consent. The project would then be assessed by an Expert Panel who would apply any conditions necessary.
Expert Panels will contain expertise relevant to the project being considered, as well as experts in, amongst other things, the environment and the Treaty. If the Environment Committee accepts the changes recommended by Cabinet, these Expert Panels will have the final say over whether a project is approved or not.*

As you may already be aware, and as per Cabinet Office advice, Matt is not able to meet with constituents about this matter.

Because a conflict of interest was identified, he was also not part of any Cabinet discussion pertaining to the Ohoka development.

However, we have put a number of questions to the relevant Minister, Hon Chris Bishop, on behalf of Ohoka residents, and we will be back to you as soon as we can.

Good morning Emma,

I hope you are well and looking forward to a nice long weekend. We are planning to plant our potatoes, a wee bit late but hopefully we might have some for Christmas.

I am working on a story about the Carter Group's Ohoka Estate development appeal in the Environment Court.

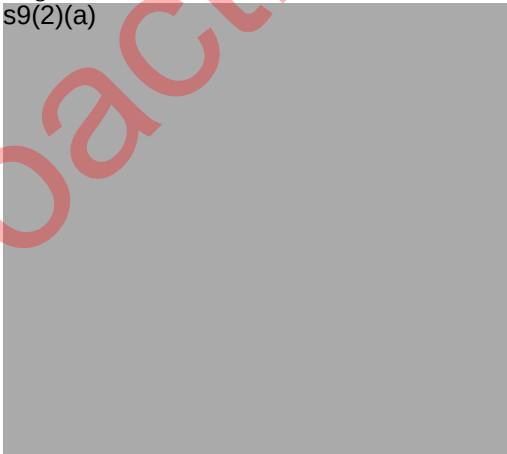

I understand that Matt initially supported the Ohoka Residents Association's opposition to the proposal. Is that correct?
When did he make that support public?
But now he has been told that he can no longer support the group. Is that correct?
If so when was that directive issued, who did it come from and what was the reason given?

If you can get this information back to me as soon as possible please Emma I would really appreciate that.

Subject: RE: STUFF re questions regarding Ōhoka fast-track development

Hi Elena

We're always happy to help with Ministers' conflicts questions but note that these questions are largely about Hon Doocey's votes in Parliament, rather than about his actions as a Minister. The Cabinet Manual provides some guidance about conflicts in the House (copied below) but I can't provide any advice on House matters beyond that.

Conflicts of interest in the House

2.77 The *Standing Orders* require a member of Parliament who has a financial interest in an item of business in the House to declare that interest before consideration of the item. The member need not declare an interest that has already been disclosed in the *Register of Pecuniary and Other Specified Interests of Members of Parliament*. The *Standing Orders* define a financial interest as including an interest held by a member's spouse, partner, or dependent child. The Speaker can decide any dispute about whether a conflict exists. The rules are set out in the section entitled "Declaration of financial interests" in the chapter on general procedures in the *Standing Orders*.

2.78 Occasionally, a Minister may find that they have a conflict concerning a bill, or part of a bill, for which they have portfolio responsibility. The *Standing Orders* do not preclude a Minister who declares a financial interest (as defined in the *Standing Orders*) from moving motions relating to a bill of which they are in charge. Nonetheless, a Minister with any conflict concerning a bill for which they have

portfolio responsibility may choose to arrange for another Minister to move formal motions relating to that bill. Any issue of this sort must be discussed in advance with the Prime Minister, the Leader of the House, and the relevant whip. The portfolio Minister must be absent from the House for another Minister to move the motions on the portfolio Minister's behalf, but may declare the conflict in a subsequent speech.

We have some suggested wording for Ministers asked about their Ministerial conflicts. Let us know if you would like to see that wording or if the Minister would still like to meet.

Thanks
Nicola

Subject: STUFF re questions regarding Ōhoka fast-track development

Hi Matt,

I'm working on a story following renewed concerns about the proposed Carter Group development at Ōhoka, which is now included in Schedule 2 of the Fast-track Approvals Act.

At a public meeting on Saturday, concerns were raised about your handling of a declared conflict of interest in relation to the development, given your familial relationship with Carter Group director Philip Carter. It has also been claimed publicly that you voted for the Fast-track Approvals Bill, including Schedule 2, despite that declared conflict.

Could you please respond to the following:

- Can you confirm whether you voted in favour of the Fast-track Approvals Bill at each of its three readings?
- Did you consider abstaining from those votes because of your familial relationship with Philip Carter and your previously declared conflict of interest?
- What advice, if any, did you receive regarding managing that conflict?
- Did you formally declare the conflict during the legislative process, and if so, how was it managed?
- Why do you believe it was appropriate to participate in those votes?
- At Saturday's public meeting, you reportedly said your position on the Ōhoka development "hasn't changed" since your earlier opposition to it. Can you explain how that position is consistent with voting for legislation that includes the development in Schedule 2?
- What would you say to residents who believe your participation in those votes has undermined public confidence in the fast-track process?
- Do you accept there is at least a perceived conflict of interest in this situation? If not, why not?

If there's any additional context you'd like to provide around how conflicts were managed during the passage of the legislation, I'd be happy to include it.

I'd appreciate your response today please.

Kind regards
Nadine
